

TIMELESS

SKIN SOLUTIONS

genesis **before & after treatment instructions**

Before treatment:

If you've started any antibiotics or other medications since your initial visit, please let us know. There are no complicated pretreatment rituals with this procedure. Prior to the procedure you will be asked to remove your makeup or moisturizers, and to have the area of treatment shaved if there is significant dark facial hair (excluding eyebrows). You may consider a Dermaplane prior to your treatment to remove fine facial hair. There are generally no numbing creams required for this procedure.

After treatment:

Immediately after the treatment you will experience some minor redness. The redness typically lasts, at the most, a few hours. You can expect to immediately return to normal activities. Please remember to use an SPF of 15+ if participating in outdoor activities. You may bring your makeup to the office and apply prior to leaving the office.

If you have any questions or concerns, please do not hesitate to call us at (614) 799-5100 or email contact@timelessskinsolutions.com.
