

TIMELESS

SKIN SOLUTIONS

curelight **before & after treatment instructions**

Before treatment:

If you are pregnant, you cannot have this treatment.

If you've started any antibiotics or other medications since your initial visit, please let us know.

Avoid direct sun exposure without sunblock protection for 7 days prior to treatment.

After treatment:

Ice, chilled cold packs, or a wet wash cloth may be applied post treatment, or as needed for comfort.

Localized redness will resolve within one hour, unless a light chemical peel was used. Redness may persist up to 3 days if a peel was used.

If significant flaking occurs, please call the office at (614) 799-5100. Avoid pulling on flaking skin.

Makeup may be applied as long as the skin is not broken.

Use your recommended skin care regimen.

If the skin is broken, apply antibiotic ointment and contact the office at (614) 799-5100. Also, further protection from the sun is required, and avoid direct sunlight until the area is healed.

You should always use an SPF of 30. You should follow the recommended treatment intervals for maximum benefit.

If you have questions at any time, please call the office at (614) 799-5100 or email contact@timelessskinsolutions.com. In case of emergency call 911.
